SIZE GUIDE

How to Measure

1. Lay your previous favourite garment flat on a table.
2. Use a tape measure and measure across the front of the chest under the armpits as shown (A).
3. Double the chest measurement to get the FullChest measurement.
4. Use a tape measure and measure from the highest point of the shoulder to the desired hemline as shown (B).
5. To measure hoodies, jackets, pants & shorts use the same method as whilst referring to the diagram at the specific garment.

A = Half Chest
B = Length

Please note sizing changes with different garments therefore determine the measurement in cms and compare it against the provided chart for that garment.

E.g., A 120cm Full Chest measurement equals an XL

SIZE (cm):

Measurement	S	M	L	XL	3XL	4XL
Full Chest (Half Chest x2)	105	110	115	120	130	135
Length (Top shoulder point)	71	74	77	79.5	84.5	87

Size Disclaimer:
 We make every effort to give accurate information regarding sizing and dimensions for our products in our size guides.
 Please note that due to the nature of the manufacturing process, from time-to-time product sizing may vary slightly. Cherry Apparel is not responsible for sizing variations in the manufacturing process.
