UNWELCOME CLASS MEMBERS

Dear KJ and K/1F Parents,

We seem to have an outbreak of head lice in Kindergarten. Could you please check your child's hair thoroughly tonight for any signs of lice or eggs.

Please treat with a prescribed medication if you find any evidence of lice/eggs. You may even like to wash your child's hair with a "preventative" shampoo even if you find no signs of infestation.

We very much appreciate the effort that most parents go to, but unless every parent is diligent in checking and treating their child/ren for head lice, we will never eradicate this problem.

Many thanks

Mrs Ptolemy
Principal
